

Ecological water Treatment that promotes sustainable development

Prevents limescale, tartar and rust
Safeguards your sanitary installations and your health
Soft natural water

Systeme
sonatec
plus

- Individual houses
- Apartment buildings
- Public buildings
- Businesses
- Industries

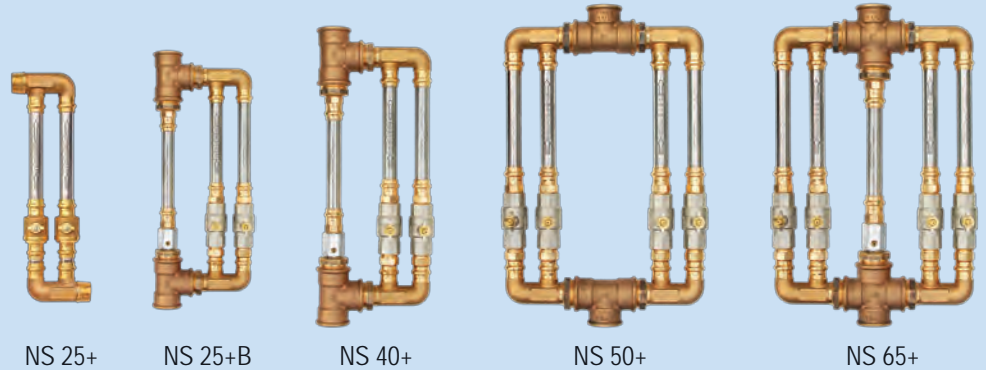

Distributed by **SONATEC INTER** sàrl www.sonatec.ch

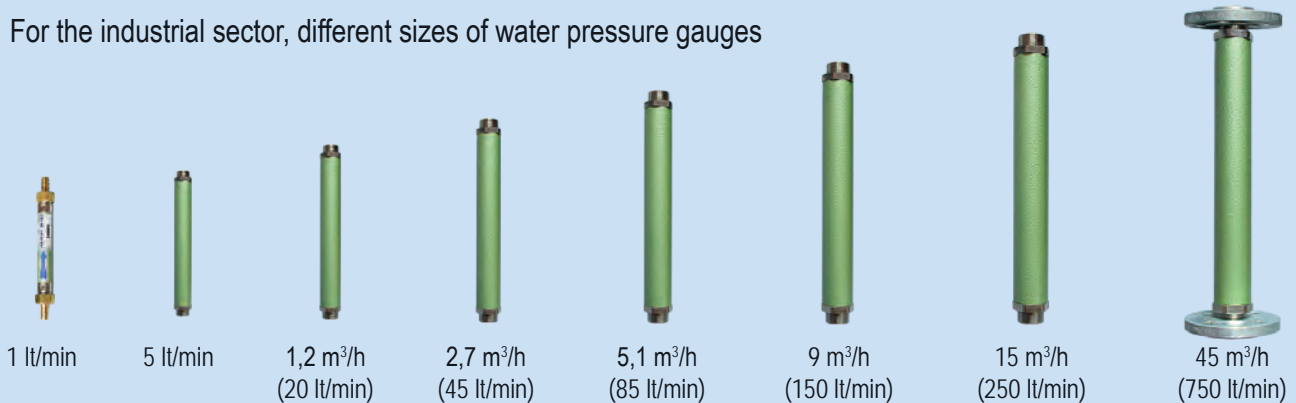

NO SALT, NO CHEMICAL PRODUCT, NO ELECTRICITY

From just one tap to any building dimension

sonatec plus system is patented, it was awarded a gold medal at the Geneva inventions Fair 2012 (it has also been awarded 12 other medals since 1982)

For the industrial sector, different sizes of water pressure gauges

With the **sonatec plus** system we make a commitment towards **ECOLOGY and SUSTAINABLE DEVELOPMENT**

- No salt, no chemical product, no electricity, no sodium in the water
- No waste of water, unlike when using a water softener (you save 15000 lt/yr that a water softener would use to wash the resins)
- Minimum maintenance filters and adjustment

Conceptual and health effects:

- **80% less limestone** deposit or tartar
- **98% less rust** caused by water
- The mineral content of the water is unaltered, which is **beneficial**
- **The water does not contain** any trace of **chlorine** and other sediments such as iron, plastic solvents, etc.
- With the **Sonatec Plus System**, we eliminate skin irritations and rashes
- **The water** has a smoother taste, therefore it is more pleasant to drink
- The system **energizes** the water by more than 30%

Legal requirements:

We totally respect the standards set by the WHO* for drinking water

*WHO : World Health Organisation
